Student Assistance Scheme (STAS) 2014
The Student Assistance Scheme provides assistance for low income families towards the cost of school levies. The benefit is paid to the school or college. Assistance is means tested and applicants are required to provide validation of income for the 2012-2013 financial year. If a family has children attending different schools (including both Government and Non-Government Schools or College) **only one application per family is required**. The application can be lodged at any school attended by at least one child of the family. Please note—Those families who applied for STAS in 2013 will be contacted directly by the Financial Assistance Unit to determine their eligibility to continue receiving student assistance. For those people who are applying for STAS for the first time or who received STAS prior to 2013 but who did not apply for STAS in 2013 because of improved circumstances, a form can be collected from the school office.
